# Importance of Enrollment Reporting

# Importance of Enrollment Reporting

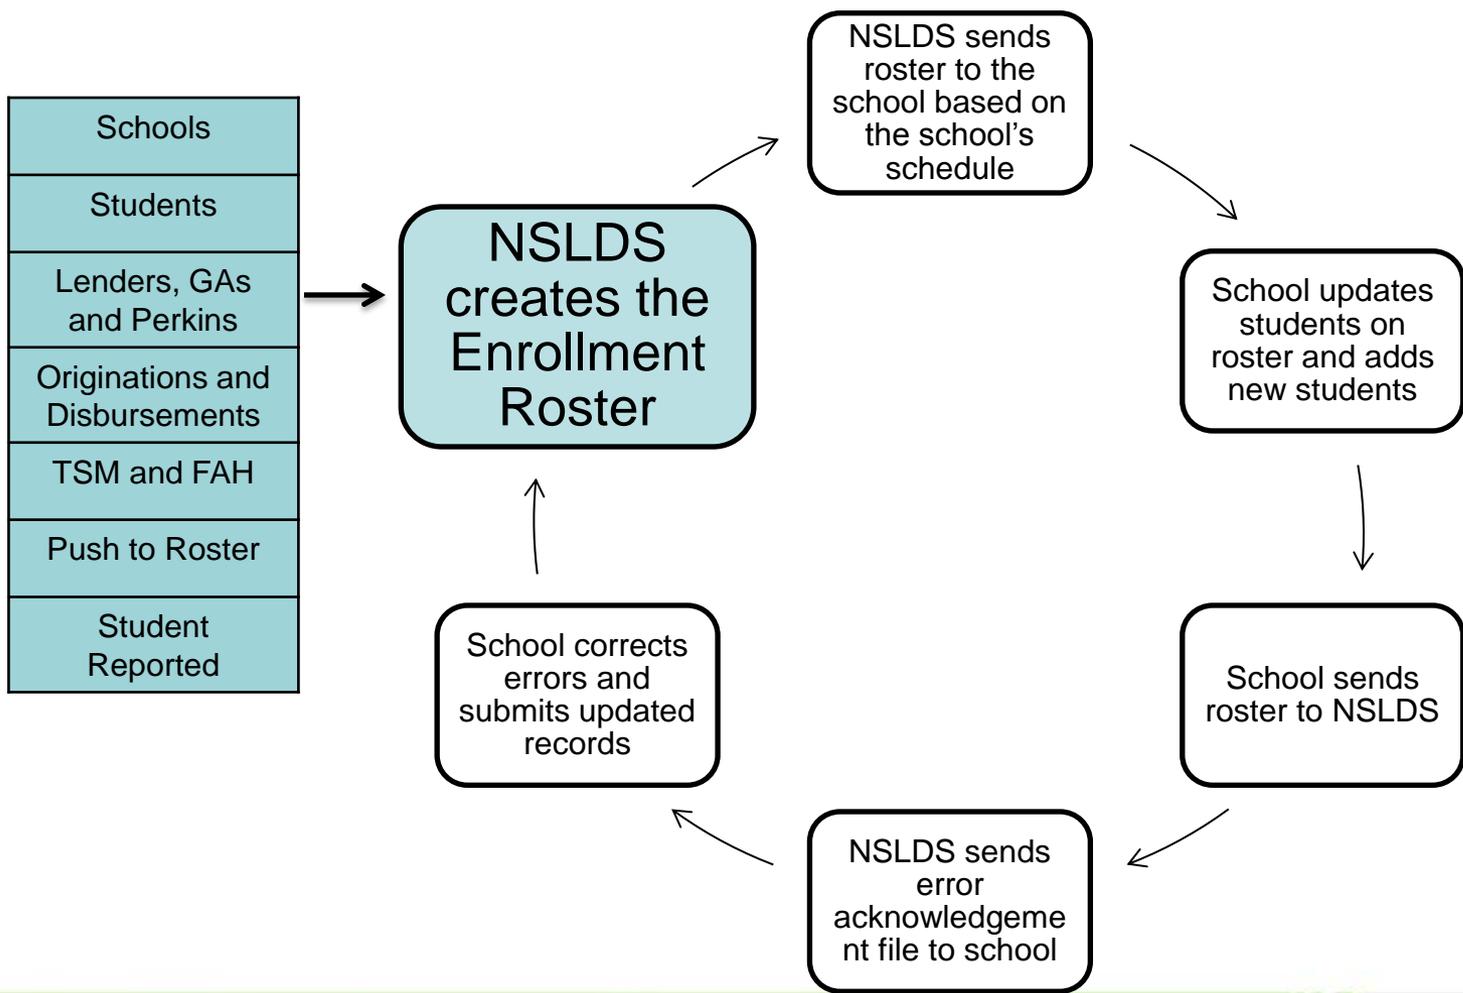

- Enrollment is essential for:
  - Proper servicing of loans throughout their lifecycle
  - Ensuring borrower's loan entitlements (ex. grace) are protected
  - Measuring effectiveness of the Federal student aid programs, especially the Federal Pell Grant Program
- After July 1, 2014 – Added Program-level Enrollment critical for:
  - Ensuring compliance with new statutory provisions – 150% Direct Subsidized Loan Limit

# Enrollment Reporting Cycle

# Enrollment Reporting Cycle

# Enrollment Reporting Cycle

# Who is on your Roster?

## **Who NSLDS will put on your roster?**

- Students who received Title IV Aid at your school as reported by Schools, Federal Loan Servicers, Guaranty Agencies, Lenders, COD, and the student.

## **Who you must add to your roster?**

- Students with Title IV aid from another school (ISIR) who will be receiving aid at your school.

## **Who you should add to your roster?**

- Students with Title IV aid from another school who will not be receiving aid at your school.

NSLDS will add Title IV students to your enrollment roster when Transfer Student Monitoring (TSM) and Financial Aid History (FAH) is requested.

# Enrollment Reporting Flow

School sends Enrollment School Code on grant and loan disbursement records to the Common Origination and Disbursement (COD) System.

COD sends the grant, disbursement, and program data to NSLDS and disbursement records to the loan servicer.

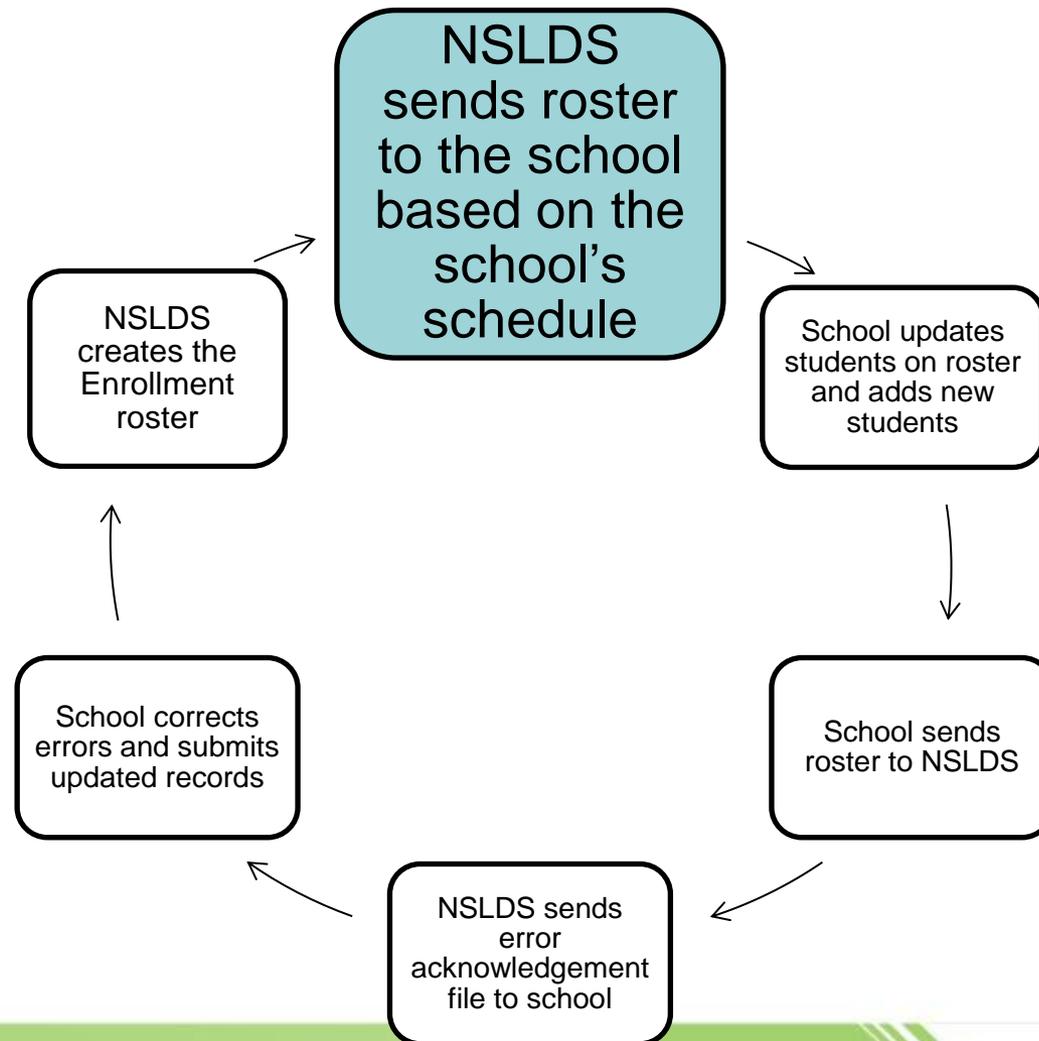

NSLDS uses the Enrollment School Code and program data from COD to place aid recipients on Enrollment Rosters.

NSLDS sends the Enrollment Roster to the school.

# Campus-Level Record (001)

## Campus-Level

- Student SSN
- 8-digit OPEID
- Student Name and DOB
- **Certification Date**
- Enrollment Status
- Enrollment Status Effective Date
- Anticipated Completion Date
- Term Begin and End Dates
- **Student Permanent Address**
- Student Phone Number
- Move To OPEID
- Program Indicator

# Certification Date

Certification Date indicates the day that the school certifies the borrower's enrollment

- NSLDS does not accept certification more than 72 days in the past
- NSLDS receives MANY old certification dates.
- Schools are not addressing

# Student Permanent Address

- Rosters without previously reported addresses will now include student address data from:
  - Common Origination and Disbursement (COD) System
  - Central Processing System (CPS)
- If an address is unknown or not available for a student, report Unknown ('UK') in any of the address fields.

# Program-Level Record (002)

## Campus-Level

- Classification of Instructional Programs (CIP) Code
- CIP Year
- Program Credential Level
- **Published Program Length**
- **Published Program Length Measurement**
- **Weeks in Title IV Academic Year**
- **Program Begin Date**
- Special Program Indicator
- Program Enrollment Status
- Program Enrollment Effective Date

# Data Collection – COD vs. NSLDS

<b>Data Item</b>	<b>COD</b>	<b>NSLDS</b>
Program Length	X	X
CIP Code	X	X
CIP Code Year		X
Credential Level	X	X
Title IV Academic Year	X	X
Special Program Indicator	X	X
Payment Period Start Date	X	
Program Indicator		X
Enrollment Status	X	X
Enrollment Status Effective Date		X
Program Begin Date		X

# Published Program Length

- How NSLDS identifies a unique program:

Combination of OPEID, CIP Code, Credential Level, and  
Published Program Length

- Unusual reporting of PPL
  - If the PPL reported to COD differs from NSLDS, it will generate a new unique program on NSLDS
  - Schools will need to examine data reported to COD and to NSLDS to determine whether the program length was correctly reported.
  - To correct the data on NSLDS, report the incorrect program as Never Attended ('X') and it will be removed from the Enrollment Roster.

# Published Program Length

- **Example 1: 10 weeks**

- Published Program Length = 10 weeks → 010000
- Published Program Length Measurement = Weeks → W
- Weeks in Title IV Academic Year = 26 weeks → 026000
  - NSLDS will convert to years =  $10/26$  → 0.3846 years

- **Example 2: 1.5 years**

- Published Program Length = 1.5 years → 001500
- Published Program Length Measurement = Years → Y
- Weeks in Title IV Academic Year = Not required when reporting in years.

# Program Begin Date

- Program Begin Date: The date on which the student began attending the program
- NSLDS uses the Payment Period Begin Date from COD as the Program Begin Date for all program-level enrollment data reported by COD.
  - Schools will need to correct this date if incorrect.

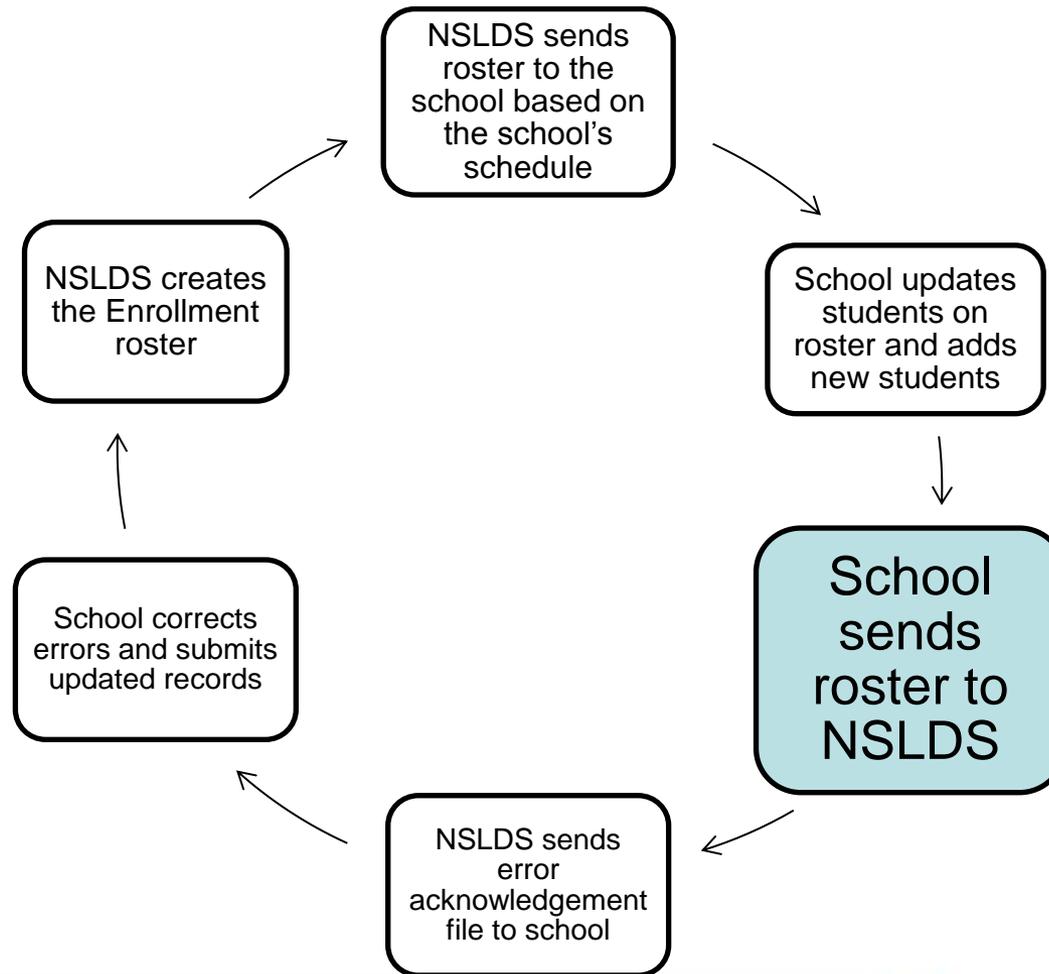

# Email Address Record (003)

## Student Email

- Student Email Address
  - Can report multiple email addresses
  - One email address per record type 003
  - Optional record type

# Enrollment Reporting Cycle

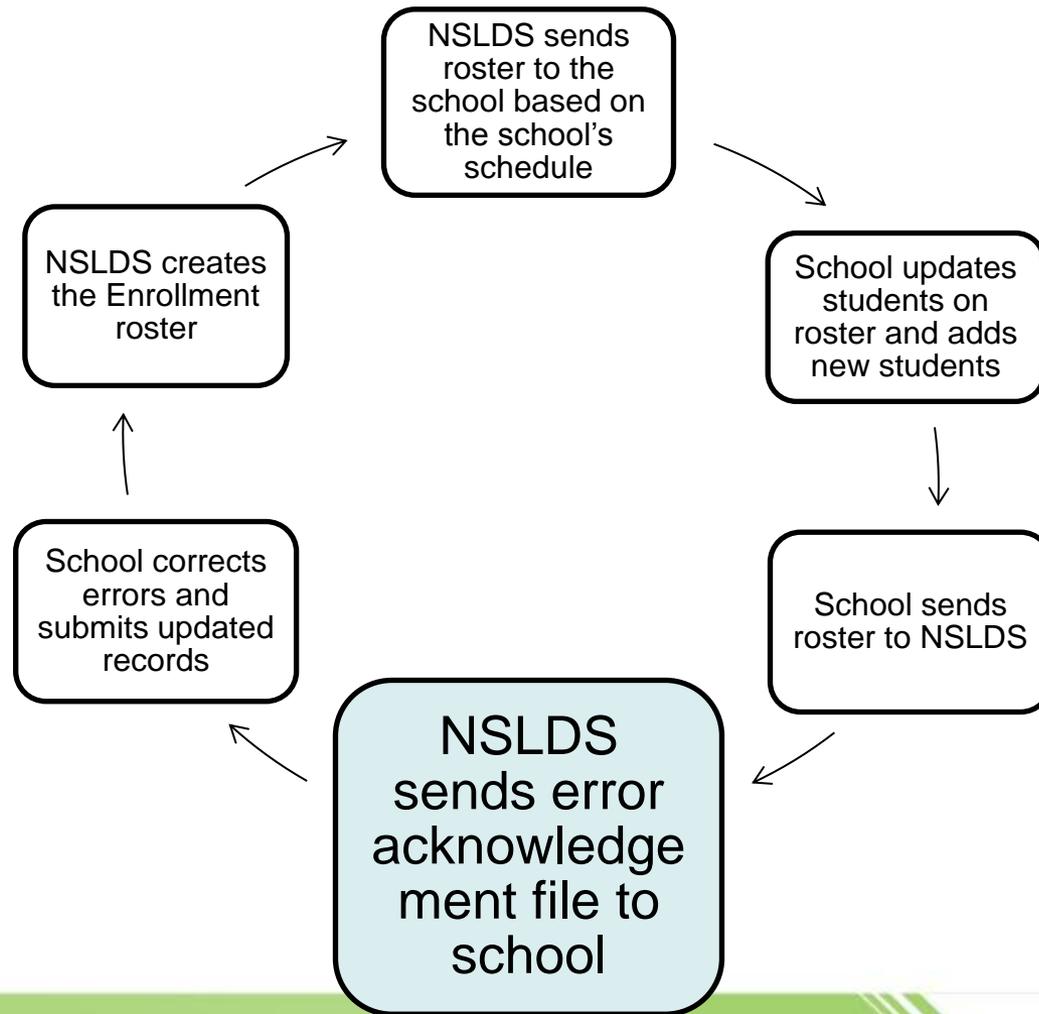

# Reporting Requirements

- Schools are required to report enrollment to NSLDS at a minimum of ***every 2 months***.
- Schools must return rosters ***within 15 days*** of receipt.
- Schools must correct errors ***within 10 days*** of receipt of an Error Acknowledgement.

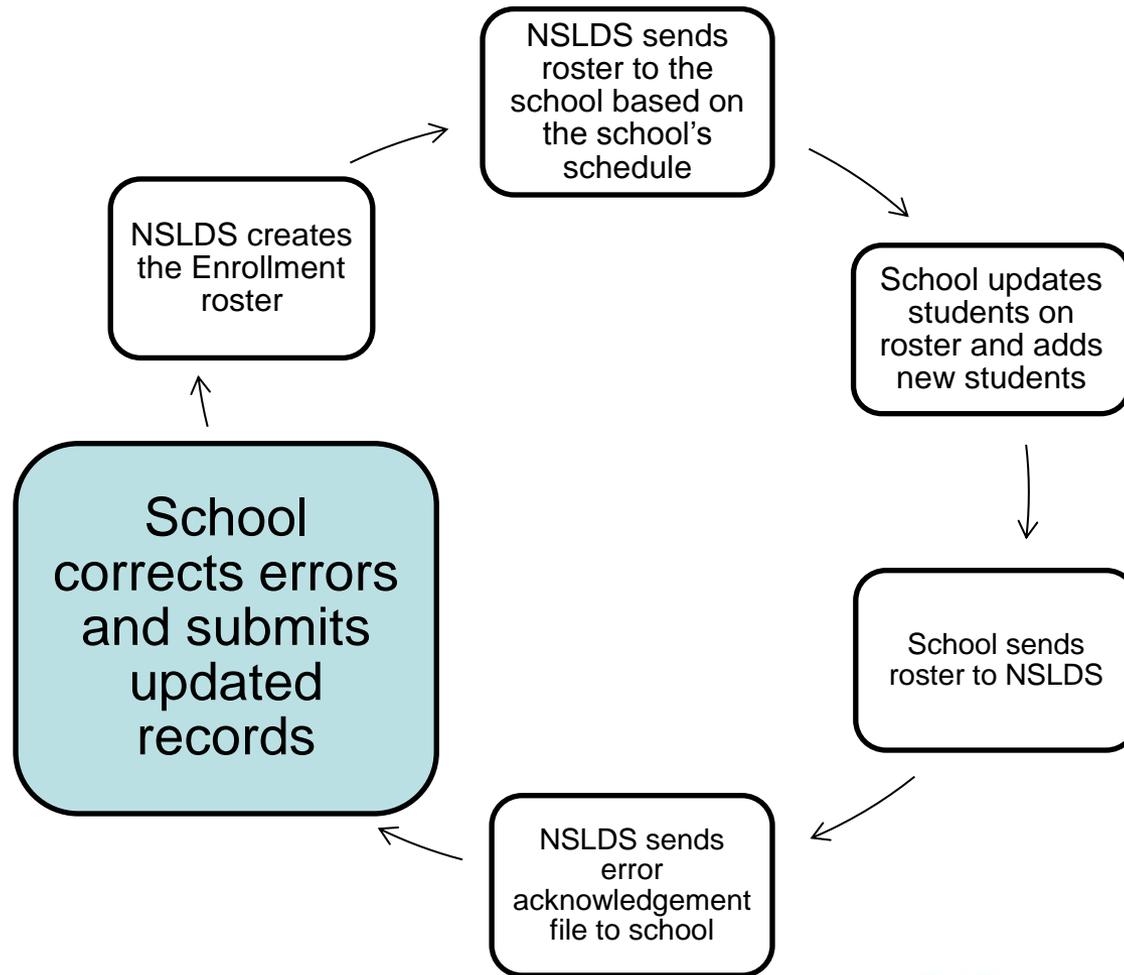

# Using Third-Party Servicers

- Schools using a Third-Party Servicer to report enrollment data to NSLDS should know that:
  - The school is responsible for ensuring that their Third Party Servicer is compliant with NSLDS reporting requirements.
  - NSLDS will contact schools, not their Third Party Servicer, if the school is out of compliance.
  
- Don't forget that all Third-Party Servicers must be added to your school's ECAR

# Enrollment Reporting Cycle

# Enrollment Reporting Cycle

# Failure to Report

- Failure to report enrollment data, including program-level, will likely result in:
  - Enrollment records being rejected by NSLDS
  - School being out of compliance
  - Potential sanctions
  - Potential over award of Subsidized Loans
  - Loss of interest subsidy
  - Improper loan servicing

# Compliance Monitoring

- Compliance Measurements and Letters to schools
  - Focus on roster completion
  - Report all Title IV students attending your school
  - Escalating notices will be sent for non-compliance
  - Referral to FSA Program Compliance for action
- Letters are scheduled to begin in January 2016

The Enrollment Statistics Report (ENLST1) provides school users with Enrollment Statistics for the school code or school location code associated with the user's ID. The report includes information about completeness and quality of the Enrollment Reporting provided by schools participating in the federal student aid program. Users may choose to receive all the data associated with the six-digit OPEID in the School Code field or specify a specific school location code by entering the eight-digit OPEID in the School Location Code field. Selecting the summary level allows the user to receive the data at either the School Code (six-digit OPEID) summary level or the School Location Code (eight-digit OPEID) detail level. The default asterisk (\*) indicates 'all' for that field selection. The user will indicate the Evaluation Date End and the number of weeks prior to the Evaluation Date End desired, limited to 52 weeks. The report output is sorted by School Code, then School Location Code. The report is displayed on-demand in a browser window using MS Excel format. Hints for printing the report in Microsoft Word format are available in the Report List Help page.

- Program Leads to Gainful Employment if Debt-to-Earnings Ratio is:
  - No more than 8% of average annual income, or
  - No more than 20% of average discretionary income for 2- or 4-year cohort
- For 2014-2015 calculation year:
  - 2-year cohort = students graduating in 2010-2011 and 2011-2012 award years
  - 4-year cohort = students graduating in 2008-2009, 2009-2010, 2010-2011, and 2011-2012 award years

**First calculation is scheduled for Summer 2016**

# GE Calculations

- Transitional Rates
  - Will be calculated only when a program receives a non-passing rate for both draft Debt-to-Earnings ratios
  - Includes a second set of ratios, annual and discretionary, calculated by using the median loan debt of students who completed the program during the *most recently completed award year*.

REPORT DESCRIPTION: The GE Debt Measures Backup by Calculation Year Report (GEDMY1) allows School users to request the data that was used to calculate the institution's Gainful Employment (GE) Debt Measures for the specified Calculation Year. Report parameters include Calculation Year and File Format (Single File or Multiple Files). The default asterisk (\*) indicates "all" Calculation Years. School users who select this option will receive backup data for the four most recent Calculation Years. Backup data for earlier Calculation Years is not available to end users. School users who select the Single File option will receive backup data for all GE programs calculated for the institution during the designated Calculation Year in a single file. School users who select the Multiple Files option will receive backup data for each calculated GE program for the institution during the designated Calculation Year in separate files. The report output can be sorted by Calculation Year/CIP Code/Credential Level, CIP Code/Credential Level/Calculation Year, or CIP Code/Calculation Year/Credential Level and is only available in extract format. The NSLDS Record Layout for the GE Debt Measures Backup extract file is available in the NSLDS Reference Materials section of the Information for Financial Aid Professionals (IFAP) Web site.
